Big in Japan 🇯🇵! To be more precise [#TokyoBigSight!](#)

It was an exciting and successful first day at the [#FCexpo](#) part of the [World Smart Energy Week](#).

The multinational [MANN+HUMMEL](#) Team from Japan, China and Germany had the chance to have many fruitful discussions on the way to [#cleanermobility!](#)

Especially for [#fuelcells](#) one thing is clear: [#filtrationmakesthefuture!](#)

Looking forward to a second great day tomorrow!

What a tremendous [World Smart Energy Week](#) in Tokyo at Fuel Cell Expo

Three days packed with international networking, presentations, great impressions, and guests from Japan, China, Korea, and other countries. We appreciate all the positive feedback and the interest in Northern Germany's Green hydrogen region. FC EXPO is the largest international trade fair of its kind, and it was definitely worth the visit.

It has been a busy and successful week on the UK Pavilion at Tokyo Big Sight!

Following a week of networking and new connections, on the last day of Wind Expo Japan ([World Smart Energy Week](#)), the UK Pavilion received a visit from the British Ambassador to Japan, Julia Longbottom and the UK Trade Envoy to Japan, Greg Clark.

It was great to be back in person and we look forward to returning!

What a show 🙌! [World Smart Energy Week](#)
Plenty of interesting exchanges and [#networking](#)

Liesje Schreinemacher @LSchreinemacher · 3月16日

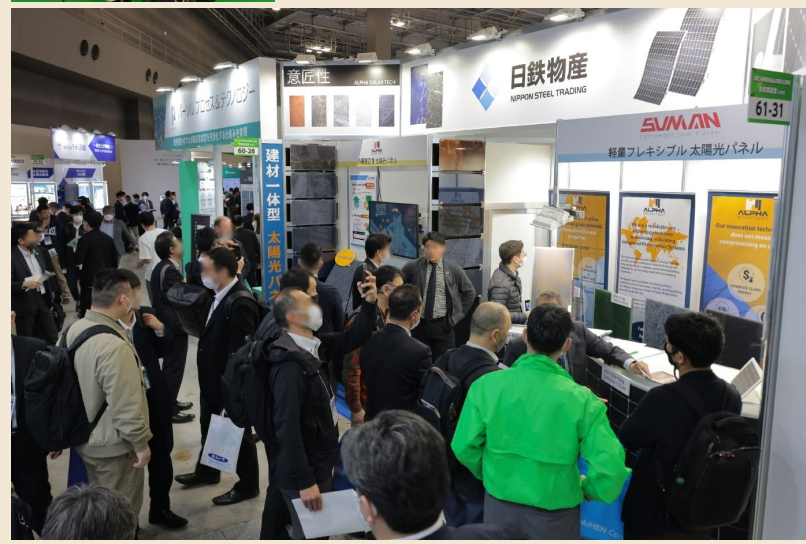

Honored to speak at [#WorldSmartEnergyWeek](#) where Dutch & Japanese companies showcase their cutting-edge technology, strengthen their existing cooperation and look for new partnerships!
